

V2 Examples

Each of the following examples illustrate a separate upload case. The separate example begins with the required header line.

Example 1

Creating Direct Addresses, Providers and Organizations.

Simple case of two providers related to the same organization.

V2.0	SERV_DIRECT	SERV_DESC	PROV_UID	PROV_NPI	PROV_FIRST	PROV_MID_N
TESTHISP	drsmith@westbranch.care.o		1234	11533441	John	
TESTHISP	dranaya@westbranch.care.c		5321	11533994	Anaya	

Example 2

Same example with auto-assigned Organization UID.

The Organization UID value is omitted and is assigned automatically by the Directory.

The ORG_UID must either be assigned in all cases or entirely omitted, to be assigned automatically.

V2.0	SERV_DIRECT	SERV_DESC	PROV_UID	PROV_NPI	PROV_FIRST	PROV_MID_N
TESTHISP	drsmith@westbranch.care.o		1234	11533441	John	
TESTHISP	dranaya@westbranch.care.c		5321	11533994	Anaya	

Example 3

Creating an Organization entry with multiple addresses.

The same organization name appears with different addresses

In this example the ORG_UID column is omitted entirely; this is equivalent to leaving the ORG_UID blank.

V2.0	SERV_DIRECT	SERV_DESC	PROV_UID	PROV_NPI	PROV_FIRST	PROV_MID_N
TESTHISP						
TESTHISP						

Example 4

The order of columns is not significant except that the HISP ID (leftmost) column must always be the first.

The same values as shown in Example 1 appear in a different order.

V2.0	ORG_UID	ORG_NPI	ORG_NAME	ORG_GEO_A	ORG_ADDR	ORG_ADDR
TESTHISP	9876	2113021190	West Branch Practice		1234 West Branch Street	
TESTHISP	9876	2113021190	West Branch Practice		1234 West Branch Street	

Example 5

Columns may be omitted. Unnecessary columns may be omitted.

Note that Required columns are still enforced during processing.

Note that although PUBLISHABILITY has been omitted and is a Required field, the default value (1) is used.

V2.0	SERV_DIRECT	PROV_UID	PROV_NPI	PROV_FIRST	PROV_LAST	PROV_SPEC
TESTHISP	drsmith@west	1234	11533441	John	Smith	207X00000X
TESTHISP	dranaya@west	5321	11533994	Anaya	Dalal	207RH0005X

Example 6

A provider practicing at multiple addresses; the same provider is assigned to three addresses.

The direct address and provider information is repeated for each address.

This example relies on automatically assigned ORG_UID values in V2. For HISPs supplying an ORG_UID,

V2 Examples

V2.0	SERV_DIREC	PROV_UID	PROV_NPI	PROV_FIRST	PROV_LAST	PROV_SPEC
TESTHISP	dranaya@wes	5321	11533994	Anaya	Dalal	207RH0005X
TESTHISP	dranaya@wes	5321	11533994	Anaya	Dalal	207RH0005X
TESTHISP	dranaya@wes	5321	11533994	Anaya	Dalal	207RH0005X
